

BIOMARKERS OF PARIS 2019

HÔPITAL
LARIBOISIÈRE
27
NOVEMBER

PRELIMINARY PROGRAM

10.00-10.30	Arrival
10:30-10:40	Introduction by Alexandre Mebazaa and Lars Wallentin
10:40-13.00	Morning Session – Chair: Chair Alexandre Mebazaa
10:40-11.10	Senior Lecture 1 Biomarkers in cardiovascular precision medicine Lars Wallentin (Uppsala Clinical Research Center, Sweden)
	Discussion
11.10-11.35	Senior Lecture 2 Microvesicles in liver diseases Pierre-Emmanuel Rautou (UMR 1149, PARCC)
	Discussion
11.35-12.00	Senior Lecture 3 Biomarker approaches to overcome the challenges in the management of HF patients with kidney dysfunction Patrick Rossignol (Université de Lorraine, Inserm, Centre d'Investigations Cliniques- 1433, and Inserm U1116; CHRU Nancy; and F-CRIN INI-CRCT)
	Discussion
12:00-12:25	Senior Lecture 4 Entresto: natriuretic peptides and beyond Nicolas Vodovar (UMR 942-MASCOT)
	Discussion
12.25-13.00	Senior lecture 5 Biomarkers of congestion Mattia Arrigo (University of Zurich, Switzerland)
	Discussion
13.00-14.00	Lunch
14.00-16.00	Fellow presentations 1-8 Jury: JL Samuel, Y Freund, C Gobeaux
16.00-16.15	Coffee break
16.15-19.00	Afternoon Session – Chair: Lars Wallentin
16.15-16.45	Senior Lecture 5 Biomarkers in cardiogenic shock Antoni Bayes-Genis (Hospital Universitari Germans Trias i Pujol, Barcelona)
	Discussion
16.45-17.15	Senior Lecture 6 Using Complex Networks to Study Bioprofiles João Pedro Ferreira (Université de Lorraine, CIC-P/CHRU de Nancy)
	Discussion
17.15-17.45	Senior Lecture 7 From Biomarker to biotarget Alexandre Mebazaa (UMR 942-MASCOT)
	Discussion
17.45-18.30	Panel Discussion: Prime time for biomarkers in clinical practice All speakers
18.30-18.45	Final remarks: How will protein biomarkers influence the future of global healthcare? Andrea Ballagi (Olink, Sweden)
19.00-20.30	Dinner and young scientist award celebration
